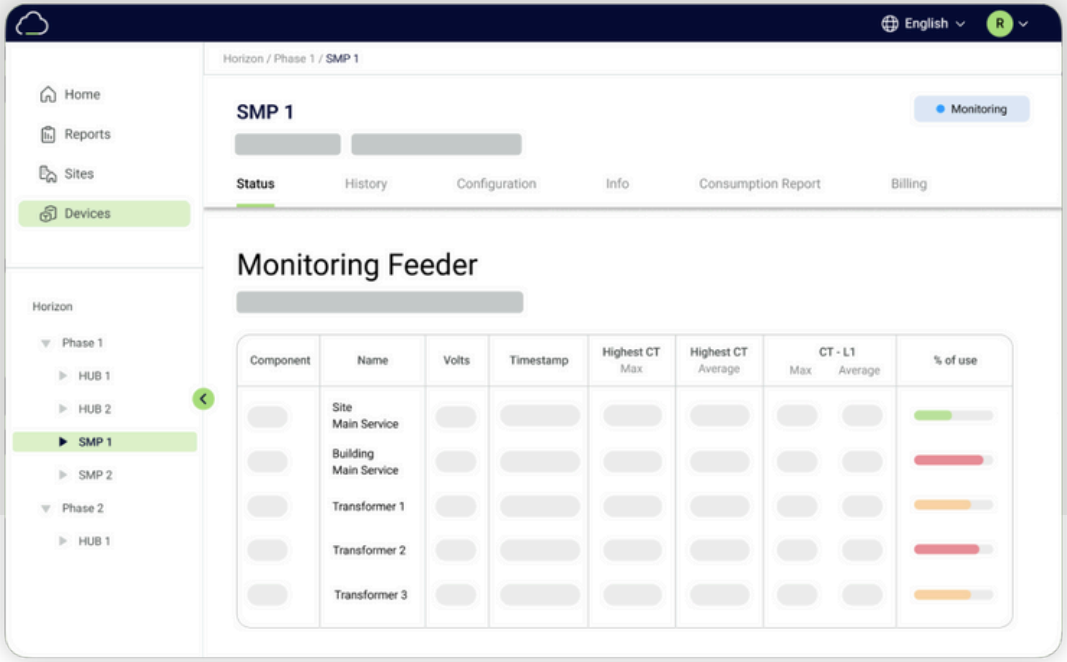
CONNECT par/by rve

One single platform to manage all your connected RVE products.



The **RVE Connect portal** is a digital platform that provides full, real-time visualization of the operation of an RVE Electric Vehicle Energy Management System (EVEMS). It simplifies the supervision of equipment (HUB, DCC+, SMP+), optimizes energy consumption tracking and billing, and enables centralized and efficient control of EV charging activities.

A platform designed specifically for condo associations and Poperty Managers, built to simplify day-to-day operations.

connect@rve-usa.com

Simplified Management

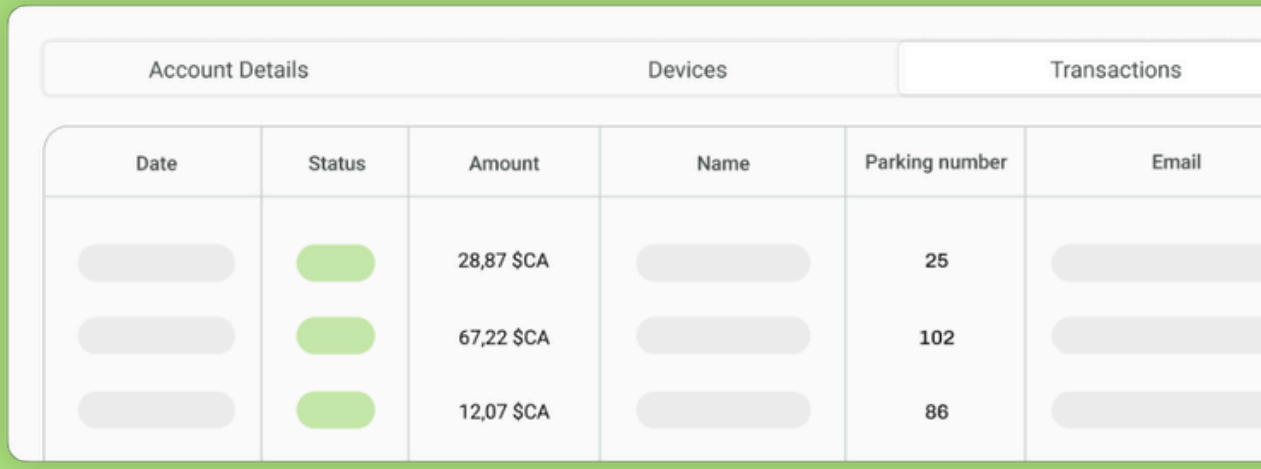
- **Less administration:** reduced management time through automated billing of the electricity consumed by each resident.
- **Centralized control:** a single dashboard provinding insight across all your buildings, equipment, and consumption data.
- **Streamlined collaboration:** secure access for your trusted electrician to enable remote monitoring and reduce unnecessary site visits.
- **Seamless integration:** connects easily with your existing property management systems via a secure API.

Unmatched Reliability and Performance

- **Certified accuracy:** automated and certified energy billing per resident, compliant with local standards (SMP+).
- **Remote control:** activatation or deactivation of charging stations for increased safety and flexibility — ideal during prolonged absences or in case of non-payment.
- **Proactive alert management:** tracking of notifications related to RVE equipment from a central dashboard, ensuring fast intervention and continuous service.
- **Energy analytics:** generation of detailed monthly and annual reports to optimize performance and anticipate future energy needs.

Plans That Fit Your Needs

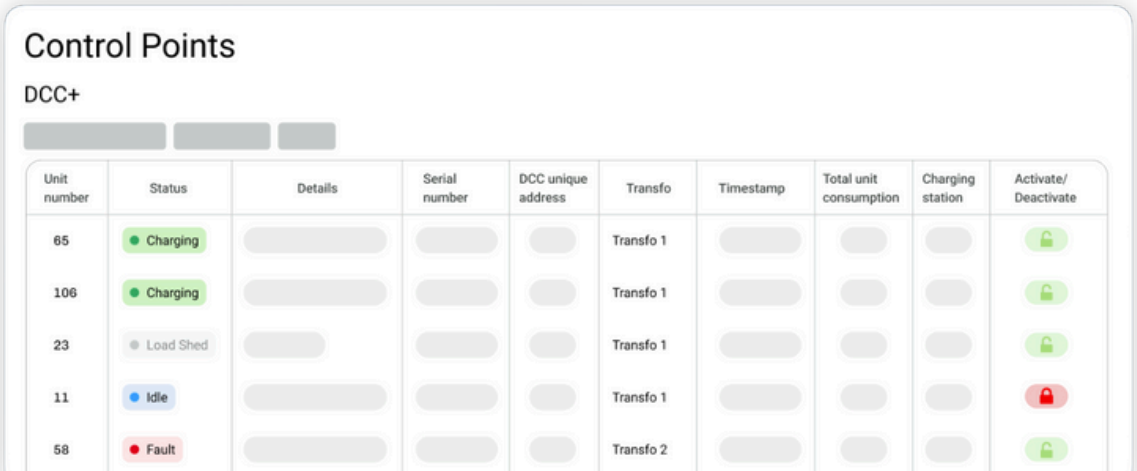
The RVE Connect portal is included free of charge for one (1) year with any RVE product purchase, and then offered at a building - and charger-based pricing model.

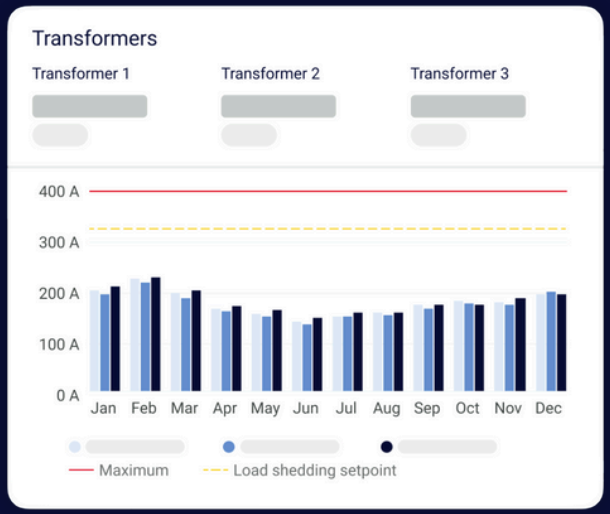


Why Choose RVE Connect?

Because as a property manager or condo association, you need a tool that is:

- ✓ Easy to use
- ✓ Scalable and flexible
- ✓ Designed specifically for your reality





RVE Connect, your trusted partner for efficient, secure, and transparent electric vehicle charging manage-ment in multi-residential buildings.
